# Revision Plan for Your Ethics Poster

What are the strengths of your draft that you want to keep?

What design choices are problematic, and how can you revise them? Keep the CRAP design principles (link opens in a new tab) in mind as you answer.

How can you better address the needs of your audience and fulfill your purpose?

What changes can you make to the words and phrases in the draft to make it more effective?

What changes can you make to the images, layout, and document design in the draft to make it more effective?

What are the most important changes you need to consider as you revise?

Given the time and technology constraints of the assignment, what can you reasonably revise before the due date? What else would need revision that you don't think you will have time to complete but *should* complete if you have enough time?
