Recommendation Topic Proposal

Language Expectation: Answer every question informally. As long as I can read and understand your response, it is fine. I am not paying any attention to your grammar or punctuation.

Length Expectation: Short answers are fine, as long as they are clear and specific. Aim for an answer that is at least the maximum length of a Tweet, which is 280 characters. There's no problem if you run over.

1. Tell me your major and a bit about your career goals. What kind of work will you do when you graduate?

2. Tell me the topic you have chosen for your recommendation report so that I can confirm that it will work for the projects. Remember to be specific.

3. Tell me why you have chosen this topic. I want to know a little about your motivation and interest in the topic.

4. Tell me how you can observe the situation personally and gather relevant evidence of the problem.

5. If there's anything else that you want me to know about your topic or any questions that you want to ask, include those below.
