

AI Prompt to Check Your Correspondence & Informational Report

I am writing an informational memo that objectively evaluates two similar tools from the candidate list for a workplace audience. I am uploading my draft. Please help me check it against the criteria below, but do NOT make any changes or revisions to the document. Tell me how well the document meets each criterion and identify specific areas I should consider revising.

Assignment Requirements

My memo uses memo format, evaluates two similar tools from the candidate list, and is approximately 1–2 pages long.

Objective Tone

My memo presents information objectively and does not recommend, advocate for, or “sell” either tool.

Audience Awareness

My memo addresses Luci Lee’s needs and provides information that would help a workplace audience understand the tools.

Tool Information

My memo clearly explains the features, capabilities, and limitations of both tools using accurate and relevant information. It uses clear details about the tools rather than general claims.

Comparison

My memo explains important similarities and differences between the two tools rather than discussing them completely separately.

Organization

My memo is organized logically and uses headings that help readers locate information quickly.

Document Design

My memo uses effective spacing, paragraph chunking, and layout choices that make it easy to read and scan.

Plain Language

My memo uses concise sentences, appropriate word choice, and language that is easy for a non-expert reader to understand.

Professional Correspondence

My memo includes an effective opening, body, and closing that follow workplace communication conventions.

Review my draft based on these requirements. For each criterion, explain whether it appears to meet the requirement and point to specific evidence from my draft that supports your assessment. If a criterion needs attention, explain what I should consider changing and why.

Remember to provide revision suggestions only. Do not rewrite, revise, or provide replacement language for any part of my draft.
