

AI Prompt to Check Your Proposal

I am writing a workplace proposal memo requesting approval to evaluate a client document and develop a recommendation report for the client. I am uploading my draft. Please help me check it against the criteria below, but **do NOT make any changes or revisions to the document**. Tell me how well the document meets each criterion and identify specific areas I should consider revising.

Project & Genre

My document is a workplace proposal memo that requests approval to evaluate one of the client documents from the Scenario List and develop a recommendation report for that client.

Length & Layout

My proposal is approximately 7–9 pages or longer, including the Gantt chart and annotated bibliography, uses 1-inch margins, and numbers pages 2 through the end without numbering the first page.

Required Proposal Sections

My proposal includes memo headers, an introduction without a heading, Proposed Program, Qualifications and Experience, a Task Schedule or Proposed Timeline, and an Annotated Bibliography. I did not add an Executive Summary or Budget.

Project Focus & Rationale

My proposal clearly identifies the client and document I selected, explains what I propose to investigate, and gives specific reasons the document warrants investigation.

Preliminary Analysis

My proposal identifies specific communication concerns involving document design and usability, plain language, and accessibility without treating my preliminary observations as final conclusions.

Research & Analysis Plan

My Proposed Program clearly explains how I will research and evaluate the client document, including the strategies I will use to investigate its communication problems and develop recommendations.

Audience & Client Context

My proposal shows that I understand the three audiences important to the project: the Project Lead who will approve my proposal, the client organization that will receive the recommendation report, and the people who use the client document.

Qualifications & Experience

My proposal explains the knowledge, coursework, experience, and/or skills that prepare me to complete this project without inventing or overstating my qualifications.

Research Sources & Citations

My proposal uses at least five credible outside sources, including relevant standards, guidelines, research, and/or professional recommendations that help establish why the document warrants investigation or provide resources for my evaluation. I cite information used in the proposal according to the documentation style appropriate to my discipline.

Annotated Bibliography

My annotated bibliography includes at least five sources. Each entry includes a complete citation, a concise and objective summary with an explanation of how the source can support my evaluation, and two quotations I may use in the recommendation report.

Gantt Chart

My proposal includes a Gantt chart that clearly shows the major tasks in my project, when they will occur, and how long they will take. The schedule is realistic for completing the recommendation report.

Additional Visual

In addition to the Gantt chart, my proposal includes at least one relevant visual aid. Each visual has a number and descriptive title, appears near its discussion, and is referred to by number in the text before it appears. I did not use clip art.

Organization & Document Design

My proposal uses hierarchical headings, single spacing within paragraphs, double spacing between paragraphs and around headings, no paragraph indents, and readable layout and spacing that make the document easy to scan.

Plain Language & Professional Style

My proposal uses clear, concise sentences; chunked paragraphs; appropriate word choice; and a professional, confident tone appropriate for the Project Lead.

Additional Instructions

Review my draft based on these requirements. For each criterion, explain whether it appears to meet the requirement and point to specific evidence from my draft that supports your assessment. If a criterion needs attention, explain what I should consider changing and why.

If you cannot verify a requirement from the uploaded draft—for example, page dimensions, margins, page numbering, or another formatting feature—tell me that you cannot verify it rather than assuming that I have met the requirement.

Remember to provide revision suggestions only. Do not rewrite, revise, or provide replacement language for any part of my draft.
